Hi Mike – Elaine gave me a call yesterday and mentioned the same thing. It's looking like March 19 is the date that works for most people. Would that be ok?

Hey Mary Beth. We are in the final stretch of a levy campaign and most of the key staff that needs to be present for this meeting cannot make it until after March 17. I hope we can schedule this later. Once a date is set, I will secure a building.

Subject: Rescheduling Gorge Dam pre-design workshop - please respond by Fri, Feb 21
Importance: High

Hello All,

Based on the feedback received on our Project Coordination Team call last week, I am sending out a new doodle poll to re-schedule the pre-design workshop for a full day meeting (8:30 AM – 4:30 PM) which may coincide with the larger stakeholder quarterly meeting (to be held as a “working lunch”). Note that the doodle poll has an option of “yes, if need be” – click on the checkbox twice. Please consider using this option if you are able to cancel or move a previously scheduled meeting so that we can increase our chances of finding a date that works for the majority.

<https://doodle.com/poll/n4nkukr3d56hcaea>

Feel free to forward this e-mail to others that are critical to the discussion and decision making process for the various topics included in the attached design questions/key assumptions tracking table. I included the representatives from SMP that Mike gave me, reps from First Energy that Elaine gave me, and Caitie Nigrelli from Sea Grant. Folks also mentioned inviting reps from ODNR and Summit County, but I don't have their names.

Also, if you think of any other design questions/assumptions that you would like to discuss that are not currently on the table, please e-mail them to me.

I'd like to confirm the date and get this on our calendars as soon as possible, so **please fill out the doodle poll by COB this Friday, Feb 21.**

Thanks!
-Mary Beth
